

EDGE™

EARTHGUARD® PELLETS

High Performance Erosion Control for Jet Agitated Machines.

Pellet form of top-rated EarthGuard® Fiber Matrix

This patented technology offers highly rated erosion control along with excellent turbidity reduction and promotes quick growth establishment — all with fast, easy applications and a great price.

Edge's pellet form makes it simple to pour, requires no manual or mechanical shredding like typical hydroseeding mulches and will not clump. Edge™ instantaneously consumes water in jet agitated machines allowing for its immediate wet-out and creation of a uniform slurry with minimal water and mixing time.

- **Highly rated erosion control**
- **Only 80 gallons of water per 50 lb. of Edge™**
- **Fast, easy application**

Smart applications for remote sites of any size.

Effective For:

- Slope Stabilization
- Landscape Design
- Reclamation
- Storm Water Runoff Protection
- Environmental Disaster Response
- Hazardous Waste Cover
- Land Development
- Construction
- Utilities
- Pipelines

Can be mechanically or manually applied, no water needed.
